

SYSTEMAGIC
DOING IT DIFFERENTLY

EQUIPMENT LEASING WITH SYSTEMAGIC & GRENKE

Did you know that we provide equipment and machine leasing to our customers? If you're looking to procure new equipment and are interested in our leasing options, this document will provide you with all of the information you need.

What Can We Lease?

We can lease equipment, software and in some cases, installation (where it is connected to a leased bit of kit) on spends from **£2,000 upward.**

What Are The Lease Terms?

Leases are typically 12, 36 or 48 months and are provided through Grenke. Payments can be made monthly or quarterly.

Why Lease Through Us?

When you lease through us, we manage all application paperwork, liaising with Grenke on your behalf to complete credit checks, and register equipment serial numbers and warranties.

All you need to do is choose your device(s) and digitally sign the acceptance document.

Once complete, the lease agreement will be between you and Grenke.

End of Lease Agreement

At the end of your lease agreement, you can choose to hand the equipment back and walk away, lease new equipment under a new agreement, or pay a small 'title transfer fee' to retain and own the equipment outright.

At that stage, we would get involved again to arrange the next steps - making the process easy for you.

THE BENEFITS OF LEASING

Leasing computer equipment comes with many advantages, especially for small and medium-sized businesses with a limited budget.

Maintenance

Many lease agreements include maintenance and servicing.

No Upfront Cost

Leasing requires no large upfront cost (like purchasing outright).

Easy Budgeting

Leasing makes budgeting simple with monthly payments.

Latest Tech

Leasing makes the latest tech more accessible to small businesses.

Tax Deductions

Lease payments can often be deducted as a business expense.

Flexibility

Leases usually include an upgrade clause part-way through.
